Subject index

Abscess, bone, chronic osteomyelitis (*case report 791*) 367
Abscesses, primary epiphyseal bone, CT evaluation of 17
Abscesses, primary epiphyseal bone, CT evaluation of (*Letter to the editors*) 439
Absence of structural changes in the proximal femur with osteoporosis 425
Aggressive fibrous dysplasia of the maxillary sinus 563
Alveolar soft part sarcoma (*case report 796*) 386
Amyloid deposition, erosion of ischium due to, and stress fracture of the hip secondary to renal osteodystrophy (*case report 772*) 129
Amyloidosis, tumoral, at multiple sites (*case report 753*) 50
Anatomical and radiological observations concerning ossification of the sacrotuberous ligament: is there a relation to spinal diffuse idiopathic skeletal hyperostosis? 581
Angle measurements of the distal radius: a cadaver study 243
Ankylosing spondylitis complicated by trauma: MR findings correlated with plain radiographs and CT 333
Announcements 42, 128, 199, 283, 332, 432, 524, 594
Anterior cervical spine fusion: struts, plugs and plates 85
Anteversion, femoral, ultrasound examination for measurement of, in children 33
Arthrographic study: coexistence of calcific tendinitis and rotator cuff tear 183
Avascular necrosis and sequestrum formation associated with canine osteosarcoma (*case report 775*) 146
Avulsion fracture of greater trochanter (*case report 808*) 536
Avulsion injury of radial tuberosity (avulsion of distal attachment of biceps brachii) (*case report 811*) 547

Benign bone cysts, direct Ethibloc injection in: preliminary report on 4 patients 317
Benign bone-forming lesions: osteoma, osteoid osteoma and osteoblastoma. Clinical, imaging, pathologic and differential considerations 485
Benign osteopetrosis: a review of 42 cases showing two different patterns 587
Bone abscess, chronic osteomyelitis (*case report 791*) 367
Bone metastases as the presenting manifestation of rhabdomyosarcoma in childhood 433
Bone mineral and other bone components in vertebrae evaluated by QCT and MRI 109
Bone-forming lesions, benign: osteoma, osteoid osteoma and osteoblastoma. Clinical, imaging, pathologic and differential considerations 485
Bone tumour, Madelung's deformity masquerading as 329
Book review 162
Bursitis, chronic subacromial, with massive formation of rice bodies (*case report 770*) 71

Calcific tendinitis: a review of the usual and unusual 1
Calcific tendinitis and rotator cuff tear, coexistence of: an arthrographic study 183
Calcification, carbonate apatite, of ligamentum flavum (*case report 779*) 211
Calcium intake: Radiological spectrum of endemic fluorosis: relationship with 257
Canine osteosarcoma with associated avascular necrosis and sequestrum formation (*case report 775*) 146
Carbonate apatite calcification of ligamentum flavum (*case report 779*) 211
Carcinoma, squamous cell, of the skin invading the shoulder (*case report 809*) 539
Cervical prevertebral soft tissues, factors affecting the thickness of 167
Cervical spine: CT and 3-dimensional reconstruction in the evaluation of occipital condyle fracture 269
Cervical spine: fractures of occipital condyles: report of 4 cases and review of the literature 187
Cervical spine, eosinophilic granuloma of (*case report 768*) 63
Cervical spine fusion, anterior: struts, plugs and plates 85
Chest wall, mesenchymal hamartoma of, in infants and children: a clinicopathological study of five patients 569
Chondroblastic osteosarcoma grade 3 of left clavicle (*case report 804*) 469
Chondromalacia of the patellofemoral compartment, evaluation with axial MRI 325
Chondromas, soft tissue: diagnosis and differential diagnosis 309
Chondromatosis, synovial, synovial chondrosarcoma secondary to (*case report 817*) 623
Chondromyxoid fibroma of femur (*case report 776*) 358
Chondromyxoid fibroma, recurrent, in connective tissue of leg (*case report 798*) 445
Chondrosarcoma, clear cell, unusual behaviour of 279
Chondrosarcoma, extensive skeletal metastases from, without pulmonary involvement 595
Chondrosarcoma, extraskeletal (*case report 799*) 449
Chondrosarcoma, mesenchymal, of sacrum (*case report 790*) 362
Chondrosarcoma, mesenchymal, of the soft tissue of left foot (*case report 788*) 300
Chondrosarcoma, synovial, secondary to synovial chondromatosis (*case report 817*) 623
Chronic subacromial bursitis with massive formation of rice bodies (*case report 770*) 71
Clear cell chondrosarcoma, unusual behaviour of 279
Coexistence of calcific tendinitis and rotator cuff tear: an arthrographic study 183
Coincidental parosteal lipoma with osseous excrescence and intramuscular lipoma (*case report 774*) 138
Computed tomography and three-dimensional reconstruction in the evaluation of occipital condyle fracture 269
Connective tissue of leg, recurrent chondromyxoid fibroma in (*case report 798*) 445
Cruciate-deficient, anterior, knees, a study on. Radiographic assessment of sagittal knee instability in weight bearing 177
CT and plain radiographs correlated with MR findings in ankylosing spondylitis complicated by trauma 333
CT and 3-dimensional reconstruction in the evaluation of occipital condyle fracture 269
CT evaluation of primary epiphyseal bone abscesses 17
CT evaluation of primary epiphyseal bone abscesses (*letter to the editors*) 439
CT, spiral, of musculoskeletal pathology: preliminary observations 253
Cysts, benign bone, direct Ethibloc injection in: preliminary report on 4 patients 317

'Dedifferentiated' lipoma-like liposarcoma of soft tissue with focal transformation to high-grade 'sclerosing' osteosarcoma (*case report 797*) 604
Defect, dorsal, of left patella (*case report 789*) 524
Desmoid tumor in association with melorheostosis (*case report 771*) 284
Desmoid-type fibromatosis, infantile (*case report 807*) 533
Desmoplastic fibroma of pelvis (*case report 787*) 296
Direct Ethibloc injection in benign bone cysts: preliminary report on 4 patients 317
Dislocations of the sternoclavicular joint 233
Dorsal defect of the left patella (*case report 789*) 524

Edema, soft tissue, in osteoid osteoma 37
Elastofibroma dorsi: a radiological diagnosis 121

Eosinophilic granuloma: MRI manifestations 157
Eosinophilic granuloma, MR imaging of: report of 11 cases 163
Eosinophilic granuloma of bone (*case report 792*) 371
Eosinophilic granuloma of the cervical spine (*case report 768*) 63
Epiphyseal bone abscesses, primary, CT evaluation of 17
Epiphysis, slipped capital femoral: ultrasonographic findings 191
Errata 120
Evaluation of chondromalacia of the patellofemoral compartment with axial magnetic resonance imaging 325
Ewing's sarcoma of left zygoma (*case report 786*) 293
Ewing's tumor of the proximal phalanx of the 3rd finger with radiographic progression documented over a 6-year period (*case report 802*) 460
Extensive skeletal metastases from chondrosarcoma without pulmonary involvement 595
Extraskeletal chondrosarcoma (*case report 799*) 449

Factors affecting the thickness of cervical prevertebral soft tissues 167
Fatigue fractures of the sacrum in children: 2 case reports and a review of the literature 515
Femoral anteversion, ultrasound examination for measurement of, in children 33
Femur, proximal, an absence of structural changes in, with osteoporosis 425
Fibrolipoma of mean nerve (*case report 814*) 610
Fibromatosis, infantile desmoid-type (*case report 807*) 533
Fibrous dysplasia, aggressive, of the maxillary sinus 563
Fibrous dysplasia of rib (*case report 769*) 66
Fibrous dysplasia of 2nd pedal digit (*case report 784*) 441
Fibrous dysplasia, skeletal, associated with intramuscular myxoma (Mazabraud's syndrome) (*case report 800*) 452
Flipped meniscus sign 273
Fluorosis, endemic, radiological spectrum of: relationship with calcium intake 257
Foot, mesenchymal chondrosarcoma of soft tissue of (*case report 788*) 300
Fracture, avulsion, of greater trochanter (*case report 808*) 536
Fracture, occipital condyle, CT and 3-dimensional reconstruction in the evaluation of 269
Fracture of talar beaks in tarsal coalition (*case report 780*) 214
Fracture, stress, of hip secondary to renal osteodystrophy and erosion of ischium due to amyloid deposition (*case report 772*) 129
Fractures, fatigue, of the sacrum in children: 2 case reports and a review of the literature 515
Fractures, obstetrical, predisposing factors in 195
Fractures of occipital condyles: report of 4 cases and review of the literature 187

Ganglion, intraosseous, of the scapula (*case report 783*) 227
Gaucher disease type I, MR imaging in adults with: evaluation of marrow involvement and disease activity 247
Giant cell tumor in children and adolescents 173
Giant cell tumor of first metatarsal (*case report 810*) 543
Glenoid labrum, SLAP lesions of, diagnosed with MR imaging 507
Gorham's disease (Gorham-Stout syndrome) of scapula (*case report 803*) 464
Gorham-Stout syndrome (Gorham's disease) of scapula (*case report 803*) 464

Hallux valgus, the role of pronation in: radiographic features that enable assessment of first metatarsal rotation 153
Hamartoma, mesenchymal, of the chest wall in infants and children: a clinicopathological study of five patients 569
Help 602
Help obtained 114
Hematopoietic bone marrow in the adult knee: spin-echo and opposed-phase gradient-echo MR imaging 95
High-grade surface osteosarcoma of the radius (*case report 795*) 383
Hip: avulsion fracture of greater trochanter (*case report 808*) 536
Hip replacement, loose, cemented, rapid acceleration of osteolysis from (*case report 816*) 619
HLA-B27-positive patients, radiographic features of rheumatoid arthritis in 263
Hydatid disease of the soft tissues of the lower limb: findings in 3 cases 511
Hydroxyapatite crystal deposition within the ligamenta flava at C5 and the left ligamentum flavum at C6 (*case report 781*) 218

Imaging shoulder impingement 555
Infantile desmoid-type fibromatosis (*case report 807*) 533
Infarction, bone, osteosarcoma arising in (*case report 767*) 58
Inferior subluxation of the shoulder (*letter to the editors*) 104
Intraosseous ganglion of the scapula (*case report 783*) 227

Juxtacortical origin, lesions of 337

Klippel-Feil syndrome: patterns of bony fusion and wasp-waist sign 519
Knee: flipped meniscus sign 273
Knee: Patellar tendon: thickening, internal signal buckling and other MR variants 411
Knee, adult, hematopoietic bone marrow in: spin-echo and opposed-phase gradient-echo MR imaging 95
Knee instability, sagittal, radiographic assessment of, in weight bearing. A study on anterior cruciate deficient knees 177

Leiomyosarcoma, primary, of right femur (*case report 794*) 379
Lesions of juxtacortical origin (surface lesions of bone) 337
Letters to the editors 47, 104, 316, 439, 600
Ligament, sacrotuberous, anatomical and radiological observations concerning ossification of: is there a relation to spinal DISH? 581
Ligamenta flava at C5 and the left ligamentum flavum at C6, hydroxyapatite crystal deposition within (*case report 781*) 218
Ligamentum flavum, carbonate apatite calcification of (*case report 779*) 211
Lipoma, parosteal, coincidental with osseous excrescence and intramuscular lipoma (*case report 774*) 138
Liposarcoma, 'dedifferentiated' lipoma-like, of soft tissue with focal transformation to high-grade 'sclerosing' osteosarcoma (*case report 797*) 604
Loose cemented total hip replacement, rapid acceleration of osteolysis from (*case report 816*) 619
Lysinuric protein intolerance, skeletal manifestations of. A follow-up study of 29 patients 11

Madelung's deformity masquerading as a bone tumour 329
Magnetic resonance findings in skeletal muscle tears 479
Magnetic resonance imaging of bone destruction in rheumatoid arthritis: comparison with radiography 577
Magnetic resonance imaging of patellofemoral relationships 403
Maxillary sinus, aggressive fibrous dysplasia of 563
Mazabraud's syndrome: skeletal fibrous dysplasia associated with intramuscular myxoma (*case report 800*) 452
Measurements, angle, of the distal radius: a cadaver study 243
Melorheostosis, axial, MR appearance of (*letter to the editors*) 47
Melorheostosis in association with desmoid tumor (*case report 771*) 284
Melorheostosis presenting as two soft-tissue masses with osseous changes limited to the axial skeleton (*case report 778*) 206
Meniscus, flipped, sign 273
Mesenchymal chondrosarcoma of sacrum (*case report 790*) 362
Mesenchymal chondrosarcoma of the soft tissue of the left foot (*case report 788*) 300
Mesenchymal hamartoma of the chest wall in infants and children: a clinicopathological study of five patients 569
Metacarpophalangeal joints, osteoarthritis

of: the relation between ray prevalence, trauma and utilisation 25
Metastases, bone, as the presenting manifestation of rhabdomyosarcoma in childhood 433
Metastases, extensive skeletal, from chondrosarcoma without pulmonary involvement 595
Metatarsal, first, giant cell tumor of (*case report 810*) 543
Metatarsal, first, radiographic features that enable assessment of rotation of: the role of pronation in hallux valgus 153
MR appearance of axial melorheostosis (*letter to the editors*) 47
MR findings correlated with plain radiographs and CT in ankylosing spondylitis complicated by trauma 333
MR imaging in adults with Gaucher disease type I: evaluation of marrow involvement and disease activity 247
MR imaging of eosinophilic granuloma: report of 11 cases 163
MR imaging, SLAP lesions of the glenoid labrum diagnosed with 507
MR imaging, spin-echo and opposed-phase gradient-echo: hematopoietic bone marrow in the adult knee 95
MRI and QCT, bone mineral and other bone components in vertebrae evaluated by 109
MRI, axial, evaluation of chondromalacia of the patellofemoral compartment with 325
MRI manifestations: eosinophilic granuloma 157
MRI of patellar tendon: thickening, internal signal buckling and other MR variants 411
MRI of soft tissue abnormalities: a primary cause of sickle cell crisis 501
MRI of soft tissue tumors 77
Muscle tears, skeletal, magnetic resonance findings in 479
Myxoma, intramuscular, associated with skeletal fibrous dysplasia (Mazabraud's syndrome) (*case report 800*) 452

Nerve, median, fibrolipoma of (*case report 814*) 610

Obstetrical fractures, predisposing factors in 195
Occipital condyle fracture, CT and 3-dimensional reconstruction in the evaluation of 269
Occipital condyles, fractures of: report of 4 cases and review of the literature 187
Os odontoideum in identical twins: perspectives on etiology 525
Ossification of the sacrotuberous ligament, anatomical and radiological observations concerning: is there a relation to spinal DISH? 581
Osteoarthritis of the metacarpophalangeal joints: the relation between ray prevalence, trauma and utilisation 25
Osteoblastoma, osteoid osteoma and osteoma, benign bone-forming lesions. Clinical, imaging, pathologic and differential considerations 485
Osteochondroma, radiation-induced, of ilium (*case report 785*) 289
Osteochondroma, radiation-induced, of the ilium (*case report 773*) 135
Osteoid osteoma of coccyx (*case report 801*) 457
Osteoid osteoma, osteoma and osteoblastoma, benign bone-forming lesions. Clinical, imaging, pathologic and differential considerations 485
Osteoid osteoma, soft tissue edema in 37
Osteolysis, rapid acceleration of, from loose cemented total hip replacement (*case report 816*) 619
Osteolytic Paget's disease of the calcaneus (*case report 782*) 222
Osteolytic Paget's disease of 5th lumbar vertebra (*case report 777*) 203
Osteoma, osteoid osteoma and osteoblastoma, benign bone-forming lesions. Clinical, imaging, pathologic and differential considerations 485
Osteomas, paranasal sinus: a review of 46 cases 417
Osteomyelitis, chronic, bone abscess (*case report 791*) 367
Osteomyelitis, quantitative bone gallium scintigraphy in 239
Osteopetrosis, benign: a review of 42 cases showing two different patterns 587
Osteoporosis, an absence of structural changes in the proximal femur with 425
Osteosarcoma arising in bone infarction (*case report 767*) 58
Osteosarcoma, canine, with associated avascular necrosis and sequestrum formation (*case report 775*) 146
Osteosarcoma, chondroblastic, grade 3 of left clavicle (*case report 804*) 469
Osteosarcoma, high-grade 'sclerosing', focal transformation from 'dedifferentiated' lipoma-like liposarcoma of soft tissue (*case report 797*) 604
Osteosarcoma, high-grade surface, of radius (*case report 795*) 383
Osteosarcoma, periosteal, of clavicle (*case report 793*) 375
Osteosarcoma, well-differentiated, arising in right third rib (*case report 812*) 549

Paget's disease, osteolytic, of 5th lumbar vertebra (*case report 777*) 203
Paget's disease, predominantly osteolytic, of the calcaneus (*case report 782*) 222
Paranasal sinus osteomas: a review of 46 cases 417
Patella, dorsal defect of (*case report 789*) 524
Patellar tendon: thickening, internal signal buckling and other MR variants 411
Patellofemoral compartment, evaluation of chondromalacia of, with axial MRI 325
Patellofemoral relationships, MRI of 403
Periosteal osteosarcoma of clavicle (*case report 793*) 375
Periphysis and its effects on the metaphysis. II. Application to rickets and other abnormalities 115
Predisposing factors in obstetrical fractures 195
Predominantly osteolytic Paget's disease of the calcaneus (*case report 782*) 222
Primary leiomyosarcoma of right femur (*case report 794*) 379
Pseudomalignant osseous tumour of the soft tissues (*case report 766*) 55

QCT and MRI, bone mineral and other bone components in vertebrae evaluated by 109
Quantitative bone gallium scintigraphy in osteomyelitis 239

Radiation-induced osteochondroma of ilium (*case report 785*) 289
Radiation-induced osteochondroma of the ilium (*case report 773*) 135
Radiographic assessment of sagittal knee instability in weight bearing. A study on anterior cruciate-deficient knees 177
Radiographic features of rheumatoid arthritis in HLA-B27-positive patients 263
Radiographic features that enable assessment of first metatarsal rotation: the role of pronation in hallux valgus 153
Radiological spectrum of endemic fluorosis: relationship with calcium intake 257
Radius, distal, angle measurements of: a cadaver study 243
Rapid acceleration of osteolysis from loose cemented total hip replacement (*case report 816*) 619
Recurrent chondromyxoid fibroma in connective tissue of leg (*case report 798*) 445
Reflex sympathetic dystrophy syndrome (RSDS) (*case report 758*) 124
Renal osteodystrophy, stress fracture of hip secondary to, and erosion of ischium due to amyloid deposition (*case report 772*) 129
Rhabdomyosarcoma, bone metastases as the presenting manifestation of, in childhood 433
Rheumatoid arthritis in HLA-B27-positive patients, radiographic features of 263
Rheumatoid arthritis, MRI of bone destruction in: comparison with radiography 577
Rheumatoid arthritis, subluxation of the upper thoracic spine in 105
Rice bodies, chronic subacromial bursitis with massive formation of (*case report 770*) 71
Rotator interval, tear of (*case report 815*) 615

Sarcoma, alveolar soft part (*case report 796*) 386
Satoyoshi's syndrome, skeletal abnormalities in: a radiographic study of 8 cases 321
Scapula, intraosseous ganglion of (*case report 783*) 227
Scintigraphy of spinal disorders in adolescents 393
Scintigraphy, quantitative bone gallium, in osteomyelitis 239

Sclerosis, medullary, sign for the early detection of 43
Shoulder: coexistence of calcific tendinits and rotator cuff tear: an arthrographic study 183
Shoulder: SLAP lesions of the glenoid labrum diagnosed with MR imaging 507
Shoulder: tear of rotator interval (*case report 815*) 615
Shoulder impingement, imaging 555
Shoulder, inferior subluxation of (*letter to the editors*) 104
Shoulder, squamous cell carcinoma of the skin invading (*case report 809*) 539
Sickle cell crisis, a primary cause of: MRI of soft tissue abnormalities 501
Sign for the early detection of medullary sclerosis 43
Skeletal abnormalities in Satoyoshi's syndrome: a radiographic study of 8 cases 321
Skeletal fibrous dysplasia associated with intramuscular myxoma (Mazabraud's syndrome) (*case report 800*) 452
Skeletal manifestations of lysinuric protein intolerance. A follow-up study of 29 patients 11
Skeletal metastases, extensive, from chondrosarcoma without pulmonary involvement 595
Skin, squamous cell carcinoma of, invading shoulder (*case report 809*) 539
SLAP lesions of the glenoid labrum diagnosed with MR imaging 507
Slipped capital femoral epiphysis: ultrasonographic findings 191
Soft tissue abnormalities, MRI of: a primary cause of sickle cell crisis 501
Soft tissue chondromas: diagnosis and differential diagnosis 309
Soft tissue edema in osteoid osteoma 37
Soft tissue of left foot, mesenchymal chondrosarcoma of (*case report 788*) 300
Soft tissue tumors, MRI of 77
Soft tissues, factors affecting the thickness of cervical prevertebral 167
Soft tissues of the lower limb, hydatid disease of: findings in 3 cases 511
Soft tissues, pseudomalignant osseous tumor of (*case report 766*) 55
Soft-tissue masses, melorheostosis presenting as, with osseous changes limited to the axial skeleton (*case report 778*) 206
Spinal disorders in adolescents, scintigraphy of 393
Spiral CT of musculoskeletal pathology: preliminary observations 253
Squamous cell carcinoma of the skin invading the shoulder (*case report 809*) 539
Sternoclavicular joint, dislocations of 233
Stress fracture of the hip secondary to renal osteodystrophy and erosion of ischium due to amyloid deposition (*case report 772*) 129
Subacromial bursitis, chronic, with massive formation of rice bodies (*case report 770*) 71
Subluxation, inferior, of the shoulder (*letter to the editors*) 104
Subluxation of the upper thoracic spine in rheumatoid arthritis 105
Surface lesions of bone (lesions of juxtacortical origin) 337
Synovial chondromatosis, synovial chondrosarcoma secondary to (*case report 817*) 623
Synovial chondrosarcoma secondary to synovial chondromatosis (*case report 817*) 623
Synovial sarcoma, epithelial hyperplasia in the humeral air sacs and formation of medullary bone in a pigeon (*case report 805*) 473

Talar beaks, fracture of, in tarsal coalition (*case report 780*) 214
Tarsal coalition, fracture of talar beaks in (*case report 780*) 214
Tear of rotator interval (*case report 815*) 615
Tears, skeletal muscle, magnetic resonance findings in 479
Tendinitis, calcific: a review of the usual and unusual 1
Tendinitis, calcific, and rotator cuff tear, coexistence of: an arthrographic study 183
Thoracic spine, upper, subluxation of, in rheumatoid arthritis 105
Tumoral amyloidosis at multiple sites (*case report 753*) 50
Tumors, soft tissue, MRI of 77
Tumour, pseudomalignant osseous, of the soft tissues (*case report 766*) 55
Twins, identical, os odontoideum in: perspectives on etiology 525

Ultrasonographic findings: slipped capital femoral epiphysis 191
Ultrasound examination for measurement of femoral anteversion in children 33
Unusual behaviour of clear cell chondrosarcoma 279

Vertebrae, bone mineral and other bone components in, evaluated by QCT and MRI 109
Von Gierke's disease (*case report 765*) 200

Wasp-waist sign and patterns of bony fusion in Klippel-Feil syndrome 519
Well-differentiated osteosarcoma arising in right third rib (*case report 812*) 549

Zygoma, Ewing's sarcoma of (*case report 786*) 293
